SILENCE^o
URBAN ECOMOBILITY

Silence S01

Cutting edge technology and design have produced the ultimate e-moto scooter for zero emission city commuting. With its low centre of gravity and exceptional performance, this e-moto scooter is seriously fun to ride. And practical too with its clever removable 'click and go' battery and large luggage space, ideal for two helmets or a small bag.

- > 125cc equivalent
- > Available colours white, green and black
- > App connected
- > Removable battery
- > Charge in any UK standard 240V socket
- > Running costs of around £0.01 per mile
- > Maximum speed 62mph
- > 0-30 in 3.9 seconds
- > Up to 80 mile range (WMTC)
- > Under seat storage
- > LED lighting
- > USB Port

Features

Driving modes

Eco

In Eco mode, the scooter's speed is limited to **43mph**. This allows you to save money and relax more as you drive.

City

The S01 is designed for getting around the City, with the speed limited to **53mph**, giving the vehicle a good performance level and more balanced power consumption.

Sport

In Sport mode, you can drive at speeds of up to **62mph**, providing increased power and speed in specific cases and more regenerative braking.

CBS and Regenerative Brake

The S01 is equipped with a combined braking system (CBS): the one on the left applies the brakes on both wheels while the one on the right applies the brake on the front wheel and engages the regenerative brake, which assists braking and also recharges the battery.

Reverse gear

Silence scooters are the only ones to feature a reverse gear, offering full manoeuvrability. This is activated by pressing the green button on the left handlebar. Once you've tried it, it becomes an essential driving mode.

Vehicle Warranty

2 Years

Battery Warranty

3 Years

Roadside Assistance

2 Years, AA

Technical specifications S01

Class	L3e
Passengers	2
0 - 30 mph acceleration	3.9 seconds
Limited speed / Range	62 mph / 80 miles
Charging time	6-8 hours 5.6kWh
Battery weight	40kg for 5.6kWh
Weight without batteries	111 kg
Wheels (front and rear)	120/70 -15 // 140/70 -14
Brakes (front and rear)	Disc ø260 mm / ø240 mm
Brake system	CBS combined
Suspension	Hydraulic
Dimensions	2,000*705*1,313 mm
Wheelbase	1,450 mm
Distance between the seat and ground	805 mm (755 mm low seat)
Motor	7,000 W (9 kW peak power)
Type of motor	Brushless (HUB)
Features	Regenerative brake, reverse gear. Easy-to-operate centre stand & side stand
BMS (Battery Management System)	Controller system: it monitors the cell voltage, the number of battery charges and discharges and the temperature
